**Frozen in Time**-Mitchell Zuckoff 2013-04-23 #1 New York Times bestseller Frozen in Time is a gripping true story of survival, bravery, and honor in the vast Arctic wilderness during World War II, from the author of New York Times bestseller Lost in Shangri-La. On November 5, 1942, a US cargo plane slammed into the Greenland Ice Cap. Four days later, the B-17 assigned to the search-and-rescue mission became lost in a blinding storm and also crashed. Miraculously, all nine men on board survived, and the US military launched a daring rescue operation. But after picking up one man, the Grumman Duck amphibious plane flew into a severe storm and vanished. Frozen in Time tells the story of these crashes and the fate of the survivors, bringing vividly to life their battle to endure 148 days of the brutal Arctic winter, until an expedition headed by famed Arctic explorer Bernt Balchen brought them to safety. Mitchell Zuckoff takes the reader deep into the most hostile environment on earth, through hurricane-force winds, vicious blizzards, and subzero temperatures. Moving forward to today, he recounts the efforts of the Coast Guard and North South Polar Inc. - led by indefatigable dreamer Lou Sapienza - who worked for years to solve the mystery of the Duck's last flight and recover the remains of its crew. A breathtaking blend of mystery and adventure Mitchell Zuckoff's Frozen in Time: An Epic Story of Survival and a Modern Quest for Lost Heroes of World War II is also a poignant reminder of the sacrifices of our military personnel and a tribute to the everyday heroism of the US Coast Guard.

**Frozen in Time**-Theodore Jerome Cohen 2010-04-06 The trail from a major theft at the Banco Central de Chile in Talcahuano following the Great Chilean Earthquake of May 22, 1960 leads to Base Bernardo O'Higgins, a wind- and snow-swept Chilean Army outpost on the North Antarctic Peninsula. When Chilean Army 1SGT Leonardo Rodriguez fails to return from a seal hunt in the waters around the base, two Chilean Navy non-commissioned officers, CWO Raul Lucero and CPO Eduardo Bellolio, become LCDR Cristian Barbudos prime theft and murder suspects. Fearing he will die, Barbudo reveals the identity of his two suspects to visiting scientist Ted Stone, thereby placing Stones life in jeopardy. But who can Stone trust with this information, if it comes to that, to see justice done? This story is a work of fiction based on real events that took place between 1958 and 1965. It is a tale of greed, betrayal, and murderone in which the reader is given a window into the frozen world at the bottom of the Earth that few people ever will read about, much less experience. Among other things, it explores why, though seemingly unfair, bad things happen to good people; how the battle between good and evil can change forever even the most innocent person; and most of all, the role deception plays in Nature, Man, and Life. **Frozen in Time**-Jeffrey Stilwell 2011-10-12 No other continent on Earth has undergone such radical environmental changes as Antarctica. In its transition from rich biodiversity to the barren, cold land of blizzards we see today, Antarctica provides a dramatic case study of how subtle changes in continental positioning can affect living communities, and how rapidly catastrophic changes can come about. Antarctica has gone from paradise to polar ice in just a few million

years, a geological blink of an eye when we consider the real age of Earth. *Frozen in Time* presents a comprehensive overview of the fossil record of Antarctica framed within its changing environmental settings, providing a window into a past time and environment on the continent. It reconstructs Antarctica's evolving animal and plant communities as accurately as the fossil record permits. The story of how fossils were first discovered in Antarctica is a triumph of human endeavour. It continues today with modern expeditions going out to remote sites every year to fill in more of the missing parts of the continent's great jigsaw of life.

**Erebus**-Michael Palin 2018-09-25 Driven by a passion for travel and history and a love of ships and the sea, former Monty Python stalwart and beloved television globe-trotter Michael Palin explores the world of HMS Erebus, last seen on an ill-fated voyage to chart the Northwest Passage. Michael Palin brings the fascinating story of the Erebus and its occupants to life, from its construction as a bomb vessel in 1826 through the flagship years of James Clark Ross's Antarctic expedition and finally to Sir John Franklin's quest for the holy grail of navigation—a route through the Northwest Passage, where the ship

disappeared into the depths of the sea for more than 150 years. It was rediscovered under the arctic waters in 2014. Palin travels across the world—from Tasmania to the Falkland Islands and the Canadian Arctic—to offer a firsthand account of the terrain and conditions that would have confronted the Erebus and her doomed final crew. Delving into the research, he describes the intertwined careers of the two men who shared the ship's journeys: Ross, the organizational genius who mapped much of the Antarctic coastline and oversaw some of the earliest scientific experiments to be conducted there; and Franklin, who, at the age of sixty and after a checkered career, commanded the ship on its last disastrous venture.
